

**KANTEMIR**  
Precise to perform

**PRECISION  
MACHINING**

**CUSTOM MOULD  
BASES**

Our **dedicated engineering team** advises and offers **personalised solutions** responding to the highest client needs.

# THE SENSE OF PRECISION **SINCE 1972**

We serve **mould makers in Europe** and **worldwide** with individual **plates** or turnkey **mould bolsters** with a high level of accuracy and surface finishing.

# YOUR **EXPERT** PARTNER

## EXPERIENCE

Our **highly trained and multi-skilled team** provides **flexibility** to achieve the required specifications on finished plates. We are able to stand by our customers from **CAD files analysis**, through **off-line programming** and machining, into **assembly**.

## TECHNOLOGY

Our **automated production facility** operates in a clean and **temperature controlled environment**. Thanks to our latest high-tech CNC machines, we provide **reliable 3 and 5 axis finishing**.

## TRANSPARENCY

At Kantemir, we are committed to our customers' satisfaction. We have developed **strong and long-lasting relationships** with our clients guaranteeing top quality, **reliability and confidentiality**.

CERTIFIED  
**LR**  
ISO 9001

## THE KANTEMIR QUALITY

Very tight tolerance machining benefits cavity to cavity **interchangeability** and provides **high added-value** at the assembly stage. Our ISO 9001 continuous quality improvement process guarantees a consistently **high level of quality** and **absolute reliability**.
